## CAREER OBJECTIVE

Backend-focused Full-Stack Developer with hands-on experience in building RESTful APIs, AI-powered systems, and database-driven applications. Currently gaining real-world industry exposure through internship work on scalable education management platforms. Passionate about writing clean backend logic, optimizing performance, and delivering production-ready solutions.

## TECHNICAL SKILLS

**Backend:** Python, FastAPI, Node.js, C# .NET, REST API Development  
**Frontend:** Angular, React, JavaScript, TypeScript, HTML, CSS, Bootstrap  
**Databases:** MS SQL Server, MySQL  
**AI & Automation:** LangChain, Generative AI Tools, LLM Evaluation  
**Tools & Platforms:** Streamlit, Git, Railway, Postman, API Integrations

## EXPERIENCE

### Software Development Intern

ICMT

*College Care – Education Management System*

- Worked on a real-world college management platform handling academic and administrative workflows.
- Developed backend modules for admissions, student records, fee collection, and reporting.
- Designed RESTful APIs and implemented role-based access control for Admin, Faculty, and Staff.
- Optimized SQL queries and backend workflows to improve performance and data reliability.

## PROJECTS

### TailorTalk – AI Appointment Assistant

*FastAPI, LangChain, Streamlit, Google Calendar API*

- Built an AI-based conversational assistant to automate appointment scheduling workflows.
- Integrated Google Calendar with secure service-account authentication.
- Deployed scalable backend services and automated real-time booking flows.

### Restaurant Management System

*C# .NET, SQL Server, Angular*

- Developed a full-stack system for order management, cart updates, payments, and admin controls.
- Implemented REST APIs and backend business logic for smooth operational workflows.

### College Care – Education Management System

*C# .NET Core, SQL Server, MVC / Web API*

- Built modules for Exams, Results, admissions, fees, dashboards, reports, and user management.
- Implemented authentication, authorization, and activity tracking mechanisms.
- Designed scalable database schemas and optimized backend performance.

## EDUCATION

### SDIMT, Delhi

*Bachelor of Computer Applications (BCA)*

2023 – 2026
